Bucking Services

Midland, Texas

Whether it's one connection or a high-volume campaign, do you have the bucking capability you need?

2 ⅜" - 22"
OD Tubulars

Up to
100,000
lb-ft Torque

Continuous Rotation

Why Expro's Bucking Services?

Large-diameter capability

Accommodates 2 3/8" - 22" OD Tubulars. OD for larger and more demanding assemblies.

High-torque performance

Delivers up to 100,000 lb-ft maximum torque for demanding make-up and break-out requirements.

Continuous rotation

Continuous rotational make-up and break-out supports a controlled, efficient workflow.

Versatile application

Large OD and high torque in one unit support a broad range of connection and assembly requirements. Can record torque as low as 100 lb-ft - the lowest on the market.

Efficiency at scale

Well suited to individual assemblies and high-volume bucking campaigns. Tailored for premium connections.
